

PET Bottles for Beer

Petainer lightweight PET bottles are the perfect solution to deliver your beer in a cost-effective packaging, which provides superior product protection and helps you lower your carbon footprint.

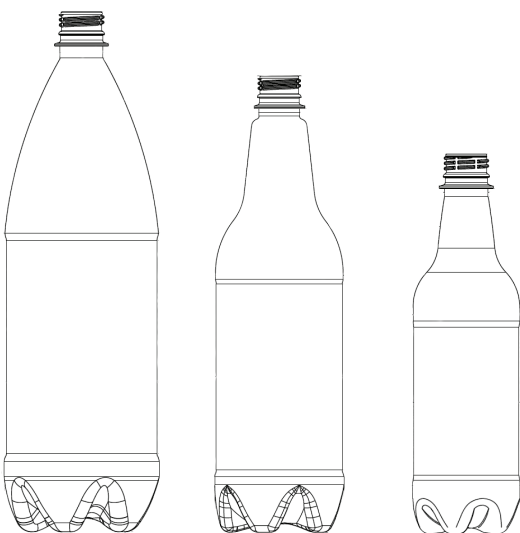

Features

- Lightweight compared to glass
- Unbreakable, Shatter resistant
- Glass-like look
- O2/CO2 Barrier protection
- 100% recyclable

Specifications

Single layer material blend to prevent oxygen entering and carbon dioxide escaping. As a result, the PET bottle can protect qualities for up to a three months period.
